Introducing Robotics Lab

Robotics Channel Partner

avishkaar
Make! We Can

Robotics is a multi-disciplinary tool that is being increasingly used by thousands of schools/teachers worldwide to motivate, excite and inspire children about Science & Technology. Our programs have a combination of Mechanical Designing and Programming at its heart.

Components of the Robotics Lab

- ✓ Well-designed Lab with optimized storage spaces and work-areas.
- ✓ Age-appropriate Robotics packs included.
- ✓ A thoughtful curriculum with a build-up from basic sequencing, logic building to programming in the multi-year program.
- ✓ Programming taught on cloud-based GUI based software - Robotics Maker Studio
- ✓ Training for Mentors / Coordinators for execution of the curriculum.

Learning Outcomes

School's Advantage

The best practical way to equip students with 21st-century skills

Use of innovative learning materials

Helps in improving schools digital equity & economic development

Student's Advantage

Allows them to explore new technologies
